CORPORATION COURT:-Judge N. B. Meade presiding .- The July term of the Corporation Court met this morning, when the grand jury, with Mr. J. B. Smoot as foreman, was sworn and brought in the following indictments: Com. vs. Geo. W. Hough, for feloniously shooting at Wm. Johnson, on King street, a true bill; Com. vs. Elias Pines, for feloniously and maliciously cutting and shooting, with intent to maim, dis-figure, disable and kill William Hellum, a

PERSONAL - Miss Fannie Dudley, the beautiful and fascinating daughter of Bishop Dudley of Kentucky, who has been on a visit to friends in this city, left this morning for Middleburg, taking with her scores of hearts made captive during her sojourn

Mr. John Oscar Honey, a typo formerly connected with this office, left here this morning for Fredericksburg, where he will refugee during the summer with such of his relatives as are patient and good listeners. He left on the train, but is liable to get off and walk at any moment, but his friends need feel no uneasiness on this score, as the track is in good condition.

Mis. Harry Monroe, of Baltimore, is vis iting Mrs. Thos. L. Monroe, of this city. Conductor William King, who was injured by the recent James river bridge accident has so far recovered as to be able to walk about again.

Major R. Taylor Scott, of Warrenton, was in this city to-day in attendance on the session of the Corporation Court.

POLICE REPORT .- Saturday night was clear and warm with two prisoners, but no lodgers at the station house.

Last night was cloudy and cool until about 1 o'clock when it became clear. There were four lodgers and four prisoners at the station The Mayor this morning disposed of the

following cases: Phil. Pratt, colored, arrested by officer Bettis, charged with a felonious assault on Lewis Baker, also colored, was fined \$5 and

William Douglass, colored, arrested by officer Goodrich, charged with being drunk and disorderly, and also for an assault on Charles Brown, colored, was fined \$5.

Frank Shuster, arrested by officers Ogden and Simpson, charged with being drunk and disorderly on the streets, was fined \$5. Samuel Alexander, colored, arrested by Lt. Smith, charged with being drunk and disorderly, was fined \$5.

THE WEATHER early yesterday morning was temperate, but by the time the sun had gotten well up in the heavens it became sultry, culminating between twelve and one o'clock in a thunder shower, after which sultry weather prevailed with alternate sunshine and cloud. About nine o'clock at night, however, there was a perceptible fall in the temperature, a stiff breeze breaking out from the northwest, which has continued throughout to day. The churches had small congregations, the summer exodus from the city having set in, and most of those who did attend services in the morning were dismissed in time to be caught in the rain. The excursion boats were, as is usual now on Sundays, crowded. A large crown gathered at the corner of King and Royal streets in the evening, where a meeting of Free Methodists held services peculiar to themselves.

THE TAYLOR HABEAS CORPUS CASE .-This morning the case of George Taylor, on a writ of habeas corpus, which had been continued from the 3d instant, came up before Judge Meade, and after some argument and a recess, it was again continued till 12 o'clock on Wednesday, in order that a telegram might be sent to New Orleans and an answer received from there concerning the record in the case.

During the progress of the case a little 'spat" took place between Mr. George A. Mushbach, one of the counsel for the prosecation, and Mr. Taylor, but the Judge rapped them to order and Mr. T. disclaimed anything offensive.

Taylor was also before Judge Wylie, of the District of Columbia court, on Saturday on a writ of habeas corpus in the same case when the time for a further hearing was fixed for Saturday next.

HABEAS CORPUS.-Frederick Goldman, colored, who, a short time since, was committed to the jail in this city by a magistrate of Alexandria county on the charge of assault, was taken before Judge N. B. Meade, of the Corporation Court, of this city, on Saturday evening, on a writ of habeas corpus and discharged on the ground that the magistrate had no jurisdiction in the case, the assault being a felonious one. Goldman's case will probably be presented to the grand jury at its next term.

THE C. & O. CANAL .- A dispatch from

Cumberland says: "Empty boats on the canal come in slowly, and the resumption of shipments is correspondingly slow. In a few days, it is thought trade will be as brisk as before the break, when it was far below the usual average. Persons in a condition to know think the canal shipments will be light until about September, when they may become brisker owing to the prospective increased sales

FROM WASHINGTON.

[Special Correspondence of the Alexandria Gazette.] WASHINGTON, D. C., July 14, 1884.

Mr. Beverly H. Lurty, of West Virginia, and Mr. Dunham, of Arkansas, clerks in the office of the Secretary of the Senate, have been removed because they are demoof Geo. W. Brent, deceased, Lawrence B. crats. They worked hard during the long session of Congress and performed their respective duties efficiently and satisfactorily, but as soon as the session was over, when their successors would have nothing to do this, and only three months' work next year, they were removed in order that republicans may draw the pay attached to their offices. Mr. Edmonds, President of the Senate, has thus repeated one of the acts for which ex-Speaker Keifer was so properly executed by all just men. He did not make the removals, to be sure. That was done by the republican caucus committee. But every body knows that he rules the caucus committee.

In the haste and hurry of the closing days of the late session of Congress, there was no opportunity for bringing up in the House the bill for a free bridge across the Potomac at Georgetown. It is thought, however, that no more legislation is requisite upon that subject, as the compliance of the State of Virginia and of the lessees of the caual with the terms of the bill of 1881 authorize the construction of the proposed bridge on the piers of the Alexandria Canal aqueduct without the destruction of that aqueduct.

The report in the Massey-Wise contested election case was not acted upon by the House at the late session, for the reason that the time of that session was too precious near its close for bills of that character to be considered. Each of the contestants, however, drew the three thousand five hundred dolars allowed him by the deficiency bill.

A gentlemen interested in the Potomac Manufacturing Company of Alexaudria, in the city to day, says that blooms have been heated there in fifteen minutes, and that the only reason why the company has not given out the contract for its required mathinery is the fact that all business will probably be depressed until after the Presidential election, and that they don't want to lose the interest on their money for that enoth of time.

Mr. Post, secretary of the democratic Congressional committee, opened the headjuarters of that committee here this morning on F, between 13th and 14th streets. During his absence they will be in charge of Mr. Watson Boyle.

Senator Riddleberger returned to his still on deck. He and Chandler and Gresham and Elkins are continally conferring as to the best means of consolidating and increasing the anti-democratic vote in Virginia. Official patronage they think, now as in the past, will be the most effective means to secure their ends, but the General still kicks at giving the straightouts any

sort of recognition. Senators Saulsbury, Ransom, Beck and Hampton have returned from Chicago. They say that while Cleveland was not their first choice, Bayard being that, they, and all other good democrats, will support the ticket, and that it is doubtless as strong as any that could have been nominated. Senator Fair has also returned. He says he does not know Governor Cleveland, but that the convention was composed of the best men in the country and that the ticket they nominated must be the best that could nave been selected.

Lieut. Commander Pendleton, has been dropped from the naval service for failure o pass the necessary examinations.

The papers in the civil suit against Col.
J. O. P. Burnside, late Superintendent of
the Postoflice Building and Disbursing Clerk, have to day been sent by the Solicior of the Treasury to the District Attorney, and a suit will be begun at once for the recovery of the \$45,000 from his bondsmen.

The Secretary of the Navy has appointed the following cadets to the Naval Academy from unrepresented Congressional districts: Drwin Hartrath, Michigan; Stewart W. Cramer, North Carolina; Lawrence H. Moses, New York, and John Wedderburn and Cary B. Morgan, of the District of Columbia. Young Wedderburn is a brother of Lawrence Wedderburn, who was at the head of his class at Annapolis, and who was accidently killed last year in the gymnasium. Last year Delegate Oury, of Arizona, failed to recommend a cadet, and Secretary Chandler appointed a young man from New Hampshire. This year Mr. Oury recommended the appointment of young Morgan and the Secretary appointed him from an unrepre-

sented district of Louisiana. The repairs to the C. & O. Canal have been completed and boats from Cumberland are expected here this evening or to-night.

The police got wind Congress, but his colleague, the ex-boss, is of the intended fight, and all the parties being closely watched the fight, as stated, did not come off.

AN ENGLISH VIEW.

LONDON, July 14.-The Times this morning in an article upon the republican and democratic nominees for the presidency says: The platforms concocted by the republican and democratic conventions are both equally unworthy of respect. They are distinguished by the absence of clear convictions, by evasions and trimmings, by servile rivalry in flattering the masses and pandering to popular prejudices, thus encouraging some of the most pernicious doctrines of modern demagogues and social quacks.
